PROFILE

Product-minded frontend developer based in the UK with 2+ years of experience building polished, responsive web experiences. Strong focus on clean UI systems, smooth interactions, accessibility, performance and turning ambiguous briefs into production-ready websites that feel refined and easy to use.

EXPERIENCE

Frontend Developer

2024 - Present

Codewave Limited · Full-time

- Build and maintain client-facing websites across multiple industries, owning interface work from brief and design refinement through to responsive implementation and deployment.
- Led UI redesign work focused on stronger visual hierarchy, smoother interaction details and a more modern, premium user experience.
- Work independently as the sole developer on selected projects while balancing deadlines, client feedback and quality assurance across browsers and devices.

React · JavaScript · HTML5 · CSS3 · Responsive UI · Client websites

SELECTED STRENGTHS

- Design-sensitive engineering: able to translate Figma concepts into polished, accurate, responsive interfaces.
- Comfortable improving existing websites, not just building from a blank page.
- Strong eye for micro-interactions, spacing, typography and details that make a product feel trustworthy.
